

Birds 2018

Birds, first thing on my mind,
Obviously, 'birds' is a word.
Nevertheless I really need
a new washing machine
to clean my shirts.
Long sleeves, short sleeves,
it doesn't matter as
long as they're cotton
and clean.

Limbs,
Second thing on my mind,
quite necessary for birds.
I can do without them
(limbs, that is)
I always have my voice.
Of course birds have voices too,
More subtle than mine I should think.
But birds cannot do without limbs,
because they would have no place
to rest
from the sky.

Just a few moments ago I thought,
Is there anything else I should remember,
or will?
That's how come I forgot this period
