

## 6. Hics 2018

Hic...Hic...Hic...

That's a start.

Just a minute, my phone just  
rang. Oh no, it's nothing.

Just a glitch.

Come to think of it,

When I reach twenty-two or  
twenty- three, the hiccups cease.

No need

for lemonade, or a glass of water.

I don't have to hold my breath  
or watch a scary movie.

Though that's not a bad idea.
